DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, drawn to an assay for modulators of BS69 activity.

Group II, claim(s) 4-5, drawn to cell line comprising BS69 promoter and assay using such.

Group III, claim(s) 6, drawn to method of administration of protein of WO97/00323.

Group IV, claim(s) 7, drawn to method of treatment using nucleic acid.

Group V, claim(s) 8-9, drawn to compound and composition thereof.

Group VI, claim(s) 10, drawn to method of treatment using compounds of group V.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The unifying technical feature of group I is the use of BS69 itself, in a binding assay. None of the other groups require BS69, *per se*.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
